Welcome to The Seattle Arthritis Clinic

As you know, there are many changes in healthcare across the nation. Our clinic policy (as well as most insurance plans), require a visit to your primary care physician (PCP) before you can be referred to a specialist.

As insurance plans and their requirements change, please be aware that you may need to obtain an **insurance authorization** from your primary care doctor to be seen by one of our providers.

You can check this by contacting your insurance company directly. If your insurance requires it, we cannot see you without having an authorization at the time of your appointment.

If you have any questions, please call our office at (206) 368-6123 and our staff will gladly assist you.
